Listen to the text about Qin's last army and choose the correct answers. You will hear the recording twice.

https://cdn-edu.olymponline.ru/wk-edu/edu_99/uploads/task/audio_content/1186745/9aacbc80b8f085e4.mp3

What did the workers near Xi'an discover in 1974?

- ☐ an ancient temple
- ☒ a terracotta soldier's head
- ☐ a well

1 балл

What was China like before Ying Zheng became emperor?

- ☒ seven separate countries
- ☐ one united kingdom
- ☐ a land without a ruler

1 балл

How old was Ying Zheng when he became king?

- ☐ 14 years old
- ☒ 13 years old
- ☐ 30 years old

1 балл

How many terracotta soldiers were made for the second army?

- ☐ about 2000
- ☐ nearly 7000
- ☒ more than 8000

1 балл

What was special about the terracotta soldiers?

- ☐ they were all identical
- ☐ they were made of gold
- ☒ each had a unique face

Listen to the text about Kyoto and choose the correct answers. You will hear the recording twice.

https://cdn-edu.olymponline.ru/wk-edu/edu_99/uploads/task/audio_content/1186746/0e344f45509c2ec6.mp3

What does the name “Kyoto” mean?

- ☐ ancient city
- ☒ capital city
- ☐ modern city

1 балл

What is the old Kyoto like?

- ☒ It's a quiet place with gardens and temples
- ☐ It's busy and noisy
- ☐ It's a mixture of old and new

1 балл

What must visitors do before entering Saiho-ji temple?

- ☐ take off their shoes
- ☐ pay a large fee
- ☒ pay some money, meditate and say a prayer

1 балл

What is the best season to visit Kiyomizu-dera temple?

- ☒ spring
- ☐ summer
- ☐ autumn

1 балл

What is special about Kiyomizu-dera temple?

- ☐ It was made of stone
- ☒ It was made without any nails
- ☐ It was built on water

1 балл

Listen to the text about Petra and choose the correct answers. You will hear the recording twice.

https://cdn-edu.olymponline.ru/wk-edu/edu_99/uploads/task/audio_content/1186747/df2f6328c605f47c.mp3

How do people usually arrive in Petra?

- ☐ by plane
- ☐ by ship
- ☒ on foot or by camel

1 балл

What is the name of the most famous building in Petra?

- ☒ the Treasury
- ☐ the Great Temple
- ☐ the Royal Palace

1 балл

What material is the Khazneh made of?

- ☐ white marble
- ☒ pink stone
- ☐ black granite

1 балл

Why was Petra a good location for trade?

- ☐ It was near a major river
- ☐ It had a large port
- ☒ It was on a road connecting Egypt, Arabia, Syria, Greece, and Rome

1 балл

What caused people to leave Petra?

- ☐ a long drought
- ☒ two major earthquakes
- ☐ a war with the Romans

1 балл

Read the text about Pyotr Kapitsa, a great Russian scientist, and choose 'true' if the statement is true or 'false' if it is false.

Pyotr Kapitsa was a famous Soviet physicist who made important discoveries in science. He was born on July 8, 1894, in Kronstadt, Russia. He studied at the Petrograd Polytechnic Institute and later moved to England, where he worked with the famous scientist Ernest Rutherford at Cambridge University.

Kapitsa studied very low temperatures and discovered superfluid helium – a special state of helium that flows without any friction. This discovery was so important that he won the Nobel Prize in Physics in 1978. Besides the Nobel Prize, he received many other awards, including two Stalin Prizes (1941 and 1943), the Lomonosov Gold Medal (1959), and the Rutherford Medal (1966).

In the 1930s, Kapitsa returned to the Soviet Union, but the Soviet government did not allow him to go back to England. Despite this, he continued his research and built a special laboratory in Moscow. He also helped develop new technologies, such as powerful microwave generators.

Kapitsa was not only a brilliant scientist but also a brave man. During Stalin's rule, he defended other scientists who were in danger. He believed in freedom in science and always spoke his mind.

In his personal life, Kapitsa was married to Anna Krylova, the daughter of a famous mathematician. They had two sons, Sergei and Andrei, who also became scientists. Kapitsa loved art and enjoyed painting in his free time.

Pyotr Kapitsa died on April 8, 1984, but his work remains important today. He is remembered as one of the greatest physicists of the 20th century.

Pyotr Kapitsa was born in 1894 in Moscow.

☐ true

☒ false

1 балл

Kapitsa worked with Ernest Rutherford in England.

☒ true

☐ false

1 балл

He won the Nobel Prize in Physics for discovering superconductivity.

☐ true

☒ false

1 балл

Kapitsa received two Stalin Prizes for his scientific work.

☒ true

☐ false

1 балл

Kapitsa's wife was the daughter of a famous mathematician.

☒ true

☐ false

1 балл

Kapitsa's sons became artists, not scientists.

☐ true

☒ false

1 балл

Kapitsa enjoyed painting as a hobby in his free time.

☒ true

☐ false

Read the text about Konstantin Tsiolkovsky, a famous Russian scientist, and choose 'true' if the statement is true or 'false' if it is false.

Konstantin Tsiolkovsky was a famous Russian scientist and inventor. He is called the "father of space travel" because his ideas helped make space exploration possible.

Tsiolkovsky was born on September 17, 1857, in a small village in Russia. When he was 10 years old, he became very sick with scarlet fever and lost most of his hearing. Because of this, he could not go to regular school, but he taught himself by reading books. He loved science, mathematics, and physics, and he dreamed about space.

As an adult, Tsiolkovsky worked as a schoolteacher, but in his free time, he wrote about rockets and space travel. In 1903, he published a groundbreaking article called "Exploration of Outer Space by Means of Rocket Devices". He explained how rockets could reach space using liquid fuel – an idea that later became reality. He also designed a space station where people could live and even imagined space elevators.

At that time, many people thought space travel was impossible, but Tsiolkovsky believed in his ideas. He wrote, "Earth is the cradle of humanity, but one cannot live in a cradle forever." He predicted that one day humans would explore the Moon and other planets.

Today, scientists recognize Tsiolkovsky as a genius. His work inspired modern rocket science, and his calculations helped engineers design real spacecraft. The first artificial satellite, Sputnik 1 (1957), and Yuri Gagarin's historic spaceflight (1961) proved that his dreams were right.

Tsiolkovsky died in 1935, but his legacy lives on. A crater on the Moon, an asteroid, and even a city in Russia are named after him. Thanks to his brilliant mind, humanity took its first steps into space.

Tsiolkovsky was born in autumn in 1857.

☒ true

☐ false

1 балл

He almost lost his hearing when he was a baby.

☐ true

☒ false

1 балл

Tsiolkovsky went to a regular school as a child.

☐ true

☒ false

1 балл

He worked as a scientist all his life.

☐ true

☒ false

1 балл

Tsiolkovsky made a plan for a space station.

☒ true

☐ false

1 балл

The first artificial satellite, Sputnik 1, was launched after Tsiolkovsky's death.

☒ true

☐ false

1 балл

A crater on Mars is named after Tsiolkovsky.

☐ true

☒ false

Read the text about Dmitri Mendeleev, a famous Russian scientist, and choose 'true' if the statement is true or 'false' if it is false.

Dmitri Mendeleev was a famous Russian chemist who was born in 1834 in Tobolsk, Siberia. He is best known for creating the Periodic Table of Elements, which is one of the most important discoveries in science.

Mendeleev studied chemistry and became a professor at the University of St. Petersburg. While working on his textbook, he tried to organize all the known chemical elements in a logical way. At that time, scientists knew about 63 elements, but there was no clear system to classify them.

In 1869, Mendeleev arranged the elements by their atomic weight and noticed that their properties repeated in a certain pattern. He created a table where elements with similar characteristics were placed in the same columns. Some gaps were left in his table because he believed that new elements would be discovered later. He was right – scientists later found elements like gallium and germanium, which fit perfectly into his table.

Mendeleev's Periodic Table helped scientists understand the relationships between elements and predict the properties of undiscovered ones. Today, the table is used all over the world in chemistry classes and laboratories.

Besides chemistry, Mendeleev also worked in other fields, such as physics, economics, and even meteorology. He travelled a lot and was interested in improving industry and agriculture in Russia.

Dmitri Mendeleev died in 1907, but his work remains very important. Scientists still use and improve his Periodic Table, which shows how brilliant his discovery was. He is remembered as one of the greatest scientists in history.

Dmitri Mendeleev was born in the Moscow region.

☐ true

☒ false

1 балл

Mendeleev created the Periodic Table of Elements.

☒ true

☐ false

1 балл

He worked as a professor at the University of St. Petersburg.

☒ true

☐ false

1 балл

He arranged the elements by their colour in the Periodic Table.

☐ true

☒ false

1 балл

Mendeleev left gaps in his table because he believed new elements would be discovered.

☒ true

☐ false

1 балл

Mendeleev was only interested in chemistry and did not study other sciences.

☐ true

☒ false

1 балл

Mendeleev's Periodic Table is no longer used by scientists today.

These people are looking for a house to buy. Read the texts and decide which home would be the most suitable for each person. There are two descriptions you do not need to use

David lives with his family in the countryside, but travels to the town centre every day for work. He wants to buy a one-bedroom flat close to his job, where he can stay during the week

This is a comfortable one-bedroom third-floor apartment in a new block of ten flats, and is the last one available. The development is located within walking distance of the town centre, shops and train station. Other benefits include shared gardens and parking

Ann works in town but wants to live in a small house in the country. She doesn't have a car, so she needs to be close to public transport

This is a country cottage with views of open fields in a wonderful village location. The accommodation consists of two bedrooms, a living room, kitchen/breakfast room, bathroom and a small garden. The cottage is close to local shops and there are regular train and bus services into town

Ben and Alice have two children. They want to move to a house in the country that has at least three bedrooms and a big garden

A large, four-bedroom, two-bathroom detached house with a living room, a dining room, a large kitchen/breakfast room, a study and a double garage. The house has approximately 1,000m² of land and is in a beautiful location with views of the countryside

James and Kate are looking for a holiday home either by the sea or in the countryside. They want to find an area that's lively and fun, where they can meet plenty of people

This is a classical style villa which has just been built as part of an exciting new development. It is within walking distance of the sea, restaurants and cafes. It has three bedrooms, a large lounge, two bathrooms, a fitted kitchen, a garage, a shared swimming pool and a small well-kept garden

Peter and Jane are looking for somewhere to retire. They want to buy a bungalow or a flat with two bedrooms, in a quiet area of town that's close to the shops

A beautiful ground-floor apartment in a pleasant and peaceful part of the town. It has two bedrooms, a living room, kitchen, bathroom and a south-facing private garden. The apartment is five minutes' walk from the town centre and local services

These people all want to buy a novel. Read the texts and decide which one would be the most suitable for these people. There are two novels you do not need to use

Phil wants to read a thriller. He doesn't travel much, but he wants to read about interesting cities in the world. He is a fast reader, so he wants a long book rather than a short one

Celia only reads novels by well-known authors. She usually likes detective stories, but now she wants to read a romantic novel that will make her cry. She has no patience with long books

Carlos is a Science teacher who likes to read novels about dangerous journeys of the past. He loves books that are based on facts but also have a funny side. He wants a book that has pictures

Thomas is a history student but he wants to read science fiction in his free time. He wants to buy a well-written novel with an unexpected ending

Maria is a primary school teacher and she wants to buy a novel to read on holiday. She would like a novel that describes how children lived in the past

Tour of Fear. A young musician is on a tour of Europe when he finds that detectives are following him. Full of danger and excitement, this novel also has wonderful descriptions of the towns where the action takes place. It may take days to read its five-hundred pages, but every minute is enjoyable

The Big Adventure. A young woman leaves her home town in search of a better life. This clever love story, which will bring tears to your eyes, is by one of America's most widely-read novelists. Written in a simple style, it can be read in a day but will stay in your memory for a long time

All Alone. This thrilling novel takes us back to the eighteenth century. It is the real story of a young man's voyage across the Atlantic in a small ship. This book, which is illustrated with beautiful drawings, will sometimes frighten you and sometimes make you laugh

A Long Journey. This story takes place in the year **2100**. A scientist travels almost a century into the future in a time machine and finds a world where five-year-old children leave home and go to university. You will not be able to guess how it all finishes until the final page!

Difficult Times. Written by a new writer who will one day be famous, this novel tells the story of a 19th century couple and their small sons. We follow them in their daily activities from the day when Neil, the father, loses his job. To enjoy it fully, read it when you have lots of time

These people all want to learn a new skill. Read the texts and decide which course would be the most suitable for these people. There are two courses you do not need to use

Kaito wants to learn about ancient history. He'd like to spend two or three days with other people finding out about the past

Looking for Clues. Work as part of a team on a real archaeological site. We offer weekend courses for people who want to discover something about the past. Experienced professors give advice on how to use equipment to search the soil, and always provide information about what you find

Mario and Lucia want to do something creative together. They're retired, so are looking for a class they can do regularly during the day

Be a star. Are you looking for a career in acting or do you just like acting for fun? Our drama group meets on Mondays between 12 and 2pm. We teach theatre skills and also dance. If you want to be on stage, we put on a play twice a year

Olivia is very busy and would like to learn something new at home. She's an artistic person and always prefers to work alone

Learn with professionals. Would you like to draw like a professional? Well, you don't need to take expensive classes. You can learn with professionals online to draw animals and people and scenes from nature. Improve your skills when you feel like it and when you have the time

Michael is looking for a job to do with wildlife and nature. He'd like to do a short course that will give him some useful experience

Do something different. This amazing 'Keeper for a Day' experience allows you to work closely with some of the zoo's most popular animals. You work with a keeper to do jobs such as feeding the giraffes, cleaning the penguin pool and preparing food for the big cats

Ella loves socialising and often has friends over for dinner. She's looking for something she can do in the evenings after work

Japanese Culture. Experience the best of Japan's culture while learning to cook Japanese food. We offer short courses on Saturday mornings and also during the week on Wednesdays and Fridays from 6pm-9pm. At the end of each month we make our favourite dishes and have a party

New Look. Do you hardly ever find clothes you like in shops? Never have time to visit busy shopping centres? How about learning to make your own clothes? We hold weekend courses for dressmaking and fashion design. Courses usually last twelve weeks and include three-hour lessons each Saturday. Email now to book a place

Формула вычисления баллов: 0-5 1-4 2-3 3-2 4-1 5-0

За решение задачи **5 баллов**

В качестве ответа укажите *ОДНО* слово *БЕЗ* артикля, без пробелов, знаков препинания и дополнительных символов, например: *olympiad*

Build Compound Words

A compound word is two words put together to make a new word. There are three words in each line. What word can be added to make three compound words?

e.g. hand, pipes, air __?__ (bag)

pan, cup, fruit _____

Правильный ответ:

cake

Формула вычисления баллов: 0-1 1-0

1 балл

cloth, coffee, spoon _____

Правильный ответ:

table

Формула вычисления баллов: 0-1 1-0

1 балл

burn, flower, glasses _____

Правильный ответ:

sun

Формула вычисления баллов: 0-1 1-0

1 балл

light, keeper, boat _____

Правильный ответ:

house

Формула вычисления баллов: 0-1 1-0

1 балл

shell, shore, food _____

Правильный ответ:

sea

Формула вычисления баллов: 0-1 1-0

1 балл

За решение задачи 5 баллов

В качестве ответа укажите **ОДНО** слово **БЕЗ** артикля, без пробелов, знаков препинания и дополнительных символов, например: *olympiad*

Build Compound Words

A compound word is two words put together to make a new word. There are three words in each line. What word can be added to make three compound words?

e.g. hand, pipes, air __?__ (bag)

brush, paste, ache ____

Правильный ответ:

tooth

Формула вычисления баллов: 0-1 1-0

1 балл

club, mare, time ____

Правильный ответ:

night

Формула вычисления баллов: 0-1 1-0

1 балл

market, man, power ____

Правильный ответ:

super

Формула вычисления баллов: 0-1 1-0

1 балл

end, guide, scrap ____

Правильный ответ:

book

Формула вычисления баллов: 0-1 1-0

1 балл

stairs, town, side _____

Правильный ответ:

down

Формула вычисления баллов: 0-1 1-0

1 балл

За решение задачи 5 баллов

В качестве ответа укажите **ОДНО** слово **БЕЗ** артикля, без пробелов, знаков препинания и дополнительных символов, например: *olympiad*

Build Compound Words

A compound word is two words put together to make a new word. There are three words in each line. What word can be added to make three compound words?

e.g. hand, pipes, air __?__ (bag)

man, place, fly _____

Правильный ответ:

fire

Формула вычисления баллов: 0-1 1-0

1 балл

phone, ache, ring _____

Правильный ответ:

ear

Формула вычисления баллов: 0-1 1-0

1 балл

wild, guard, boat _____

Правильный ответ:

life

Формула вычисления баллов: 0-1 1-0

1 балл

print, ball, wear _____

Правильный ответ:

foot

Формула вычисления баллов: 0-1 1-0

1 балл

bread, snow, white _____

Правильный ответ:

board

Формула вычисления баллов: 0-1 1-0

1 балл

За решение задачи 5 баллов

В качестве ответа укажите два слова в нужном порядке, БЕЗ артиклей через один пробел, БЕЗ знаков препинания и дополнительных символов, например: olympiad word

Use the clues to find the words. Change one letter in the first word to make the second word. Write the pairs of words. Pay attention to the order of the words in each pair.

e.g. an animal that likes honey – you do this with clothes (bear wear)

a friendly animal that barks – a piece of wood from a tree

Правильный ответ:

dog log

Формула вычисления баллов: 0-1 1-0

1 балл

a big boat that travels on water – a place where you buy things

Правильный ответ:

ship shop

Формула вычисления баллов: 0-1 1-0

1 балл

the white liquid produced by cows, goats, and sheep – a smooth, shiny cloth
